

I would like to let you know how much I appreciate NJ's "Do Not Call" law and do not want it changed, diminished or overturned. Prior to the "Do Not Call" list in NJ my home was under siege by telemarketers. In addition to the evening calls interrupting us, there would be as many as 13 telemarketing calls on my answering machine during the day. Telling them to take my name off the list did not work; this Act does work and our time at home is now our own. I pay for my phone and will use it as I choose. If there is something I wish to purchase or service I need, I will initiate the contact. I suggest a "Do Call" list for those who appreciate or do not mind receiving telemarketing calls.
